

inspiring confidence

PRINCIPAL'S REPORT

Our Family Mass on Sunday was a beautiful gathering of our community, where we celebrated with song, prayer and reflection giving thanks for our families, students, and staff. Fr Eka Tanaya engaged us with his homily and drawing us closer to the story of the resurrection of Jesus. The farewells of leaving and retiring staff reminded us of their generosity and their great contribution to life at St Dominic's Priory College.

After 15 years of continued service to St Dominic's Priory College, **Mr Matthew Noble** has been appointed as Director – School Operations, at University Senior College. Matt's departure from the College is felt by staff and families. His contribution to the College community has always come from a place of deep care for his colleagues, his students, and our parents.

After 36 years of service to St Dominic's Priory College, **Mary Zora** is heading into retirement. Mary's love of Italian has inspired girls to embark on studying language, culture, and people. Her students have travelled the world because of a promise made during an Italian lesson in response to Mary's passion for the European lifestyle. In my meeting with Mary, she expressed deeply her gratitude for her St Dominic's life, her lifelong friends, the influence, and support of Sr Jillian Havey and most importantly the St Dom's girls.

Lina Martino has served as the College Business Manager for 31 years. Employed by Sr Jillian Havey, Lina took on the responsibility of managing the business of St Dominic's as if it were her own. The College will be forever indebted to Lina for it is because of her work that we have been able to action a Master Plan, keep our fees modest and provide excellence in resourcing across the school. Lina is a professional, clever, and committed woman with a huge heart devoted to St Dominic's Priory College.

I thank all those who attended the Mass and the Parents and Friends for organising the Morning Tea. It was a most glorious morning together.

On Friday we held our Sports Day with an assembly on Monday to announce the Age champions and trophy winners. Both occasions were wonderful with a celebration of strength, resilience, persistence, and teamwork. I thank Mr Tim Grant, Ms Michelle Richter, and all the PE staff for their work in leading this very successful event. Congratulations to overall winners, **GUZMAN**.

Thank you to the parents who attended the **Primary Cybersafe** presentation by Cybersafe Families. I thought it was a very good evening and I appreciated our guest presenter Chris and the thought-provoking contributions by parents. It is fair to say that we must work in partnership as we educate our children on the complexities of a digital life. One slide that Chris presented at the end gave some tips on what we can do at home. I thought it very useful. For more information on ways to support your children online and the latest information regarding popular Apps and games, Cybersafe Families recommend eSafety Parents www.esafety.gov.au/parents and Common Sense Media www.common sense media.org.

WHAT CAN WE DO AT HOME?

- Be involved
- Be interested
- Ask questions
- Ask them to teach you something
- Give yourself permission to be the "Noob"
- Please don't overreact
- Breathe!

May the weeks ahead find you enjoying the good company of your daughters ... away from their screens.

Dr Helen Steele
College Principal

WE OFFER OUR DEEPEST CONDOLENCES TO:

Ellena Cordon, of Year 11, on the passing of her father.

Let us take time today to pray for the Ellena and her mother, Melanie. Their grief can be supported by our prayers, our love, our care and our friendship.

HELP OUR COMMUNITY KEEP COVIDSafe

PRAYER & LITURGY

During May two very important events are acknowledged on the Catholic Social Justice Calendar, Laudato Si' Week and National Reconciliation Week.

LAUDATO SI' WEEK (16-24 MAY)

Laudato Si' Week is a celebration of Pope Francis' encyclical Laudato Si' and a call to action for Catholics around the world to care for our common home. Here at St Dominic's our own Environment Club (led by Miss Genevieve Taheny and Mrs Tracy Templeman), through many different initiatives regularly encourage us to be protectors of God's handiwork.

I provide you with a reflection (see right), by the Catholic Bishops Office for Justice, Ecology and Peace, about Goal 4 – Adoption of Sustainable Lifestyles of the Laudato Si Action Platform. For further information and more reflections on the other 7 goals visit www.socialjustice.catholic.org.au

NATIONAL RECONCILIATION WEEK (27 MAY – 3 JUNE)

May we all share in God's mission by being a voice for those who are frequently overlooked.

The dates for National Reconciliation Week remain the same each year; 27 May – 3 June. The dates commemorate two significant milestones in the reconciliation journey – the successful 1967 referendum, and the High Court Mabo decision respectively. This year's theme, Be Brave. Make Change is a challenge to all Australians – individuals, families, communities, organisations and government – to Be Brave and tackle the unfinished business of reconciliation so we can Make Change for the benefit of all Australians.

Throughout the week students have been provided with opportunities to learn about Aboriginal and Torres Strait Islander history, spirituality, culture and achievements and explore how we can contribute to achieving reconciliation in Australia.

As illustrated by our newly elected Prime Minister in his acceptance speech on election night, Reconciliation must live in the hearts, minds and actions of all Australians as we move forward, creating a nation strengthened by respectful relationships between the wider Australian community, and Aboriginal and Torres Strait Islander peoples.

Mrs Emma Rawlins
RELIGIOUS EDUCATION COORDINATOR

For Reflection

Laudato Si' invites us to adopt sustainable lifestyles, encouraging greater material simplicity. This goal calls us to a happy sobriety in our use of resources and energy, cultivating a sense of satisfaction with 'enough' rather than constantly seeking more. It underpins all the Laudato Si' goals.

While we are invited to make changes in our own households and daily lives, this effort is linked to ensuring a good life for all. By consuming less, we can work toward a future where people living in 'impoverished countries can afford a simple lifestyle, overcoming poverty without damaging nature's life' (LS n 51-52).

As we move towards winter, we might consider our use of energy. Can we reduce our energy consumption? Can we improve the energy efficiency of our homes and workplaces? As we try to do so, let us reflect on Pope Francis' words: 'there is an urgent need to develop policies so that ... the emission of carbon dioxide and other highly polluting gases can be drastically reduced, substituting for fossil fuels and developing sources of renewable energy' (LS n 26).

We might also consider our dietary habits. Can we opt for a more plant-based diet? Can we consider a day of prayer and fasting for the needs of the world each week, or abstain from meat on Fridays?

Adopting a simpler lifestyle takes commitment and creativity. Sharing the experience in a loving spirit enables us to '... experience what it means to appreciate each person and each thing, learning familiarity with the simplest things and how to enjoy them.' (LS n 223)

PRAYER

*God, Mother of Mercy,
Stir within us compassion
and a deep desire for
reconciliation.
In this National
Reconciliation Week,
may this compassion and
reconciliation be strong
and true so that justice
flows, actions flourish,
and a difference is made.
Amen.*

NEWS FROM THE PRIMARY SCHOOL

YEAR 5 REPORT

BITSBOX CODING

As part of our Year 5 technology, both 5B and 5G have been looking at the coding program Bitsbox. We have been focusing on the language and command terms that can be used to generate code and allow different features to respond. After recreating some already made apps, students were asked to create a Bitsbox app of their own using some of the coding strategies they had learnt.

"The game I chose to create features 2 siblings trying to go home and to do that you must answer equations correctly within the time limit. The game starts with an option to pick 2 characters. Once chosen, the screen will change to the main one and there will be questions on the screen; type in the answer you think it is and if answered correctly you should move forward, if answered incorrectly you shall move down 2 steps." - *Helen Nguyen*

"Bitsbox is an app where children can code. I love this app because it allows you to code, and it helped me create many games. One of my apps did not have any issues but it is simple, I had created a game, not for one of my assignments, but just for fun. It was an app that had to use the ability to drag your mouse and fish will appear, although not many codes were used in this game but it's nice to create a simple game." - *Mahnaz Haidari*

"My Bitsbox app is programmed to help kids know what to recycle. The aim of the game is to collect as many cans as you can and not to touch the poop emoji. If you do touch it, you will automatically lose the game and then the screen will change to a red can on top will be the number of cans you collected. Here are some of the codes that I used to create this app: function and fill. Fill changes the background; function moves your character to collect the cans and it makes you lose the game when you touch the poop emoji." - *Hannah Mathews*

"The name of my game is Growing the Corn. In this game you have to click anywhere and a cornstalk will start to appear, soon becoming transforming into a corn. This game contains stamp, function tap, function loop and function vegify, and fills. It's a very simple game to play as all that is needed to do is to click somewhere random and watch as corn will start growing. The best part is that corn can grow in the sky. Look there are some corn flying in the sky!" - *Fafa Latzoo*

"In this app, if you press the play button it will make an evil laugh. If you tap the cow, it will disappear and, in the app, the writing above the alien says "I shall abduct every cow on earth!" Bitsbox is a fun way to learn how to code, try it." - *Jacinta Canil*

"Bitsbox is the best. It is all about coding and experimenting with new command terms. My app is called Kids Care and it is all about helping kids. What it does is that it has multiple emotion options to choose from like depressed, lonely, sad and many more to choose from and you click on one. Then it goes to a texting simulation and it tells you what you could do to help you. Then it asks a question saying "Do you want to go on a call?" and it will come up with a yes stamp and a no stamp. You click on the one that you want to do." - *Lakshana Kumar*

"I love Bitsbox since it can make many things possible. The coding type is Java and it's easy to understand. Once I got the hang of it, I started to try and make some more games that are more complex. The game I made is called sentence maker, it asks you to type words then there's a button which lets you reveal the sentence you created. Sometimes it can get a bit silly!" - *Katie Luc*

NAPLAN 2022

"This year was my first NAPLAN. I was very nervous during the NAPLAN tests, but when I finished, it was all ok! I thought the math test was the most challenging test during NAPLAN. I didn't know anything about NAPLAN when the teacher first explained it to the class but when we first started doing it I got the hang of it. When NAPLAN was finished it was not so bad. Now I know everything for the next NAPLAN!" - *Rose Calabria*

"I was a bit nervous because it was my first time doing NAPLAN and on a computer. I was a bit clueless on how I was supposed to get on the website Then a few days later I was getting used to the NAPLAN test. It was going well, then I got more competent in doing NAPLAN." - *Sahaj Kaur*

COVID-19 UPDATE

FACE MASK REQUIREMENTS IN SCHOOLS AND COVID-19 REMINDERS

Earlier this week, the Emergency Management Committee has announced changes to face mask requirements in education settings commencing on Monday 30 May.

To date, the St Dominic's community have done extremely well in avoiding whole school and/or classroom closures due to Covid outbreaks.

- While not required, it is strongly recommended that staff, parents, visitors and students in Years 3-12 wear masks while indoors.
- The College will therefore encourage and support staff, parents, visitors and students to continue wearing masks if they choose to.
- The College will strongly encourage the continuation of good hand hygiene, staying home if sick and maintaining social distancing where appropriate.

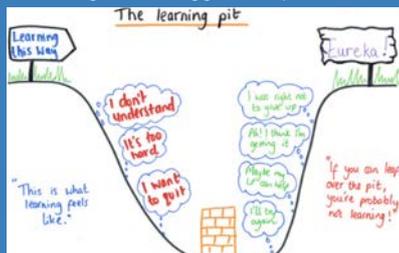

We would like to remind parents of the following:

- Any student who is displaying Covid-19 symptoms or feeling mildly unwell are asked to stay home and follow SA Health guidelines
- Any student who is displaying Covid-19 symptoms or feeling mildly unwell, will not be permitted to participate in camps/excursions and must follow SA Health guidelines.
- If you or your family members are considered Close Contacts, you are to follow SA Health guidelines and are required to undertake 5 rapid antigen tests over a 7-day period following exposure.
- For further information on Close Contact please go to: Close contacts | SA Health
- Students who are asymptomatic close contacts must wear a mask while at school and on excursions.
- Students who are asymptomatic close contacts will not be allowed to attend camps.
- Face masks must be worn while travelling by bus, this includes private buses used for excursions.

GROWTH MINDSET

GOOD LEARNERS GO INTO THE PIT!

Many learners believe that if understanding or achievement doesn't come easily to them, they must be doing something wrong. The truth is that struggle and persistence are what will help us reach our end goals. Struggle and persistence lead learners to develop a deep understanding of a subject or master a skill.

UK educator James Nottingham describes the journey from struggle to accomplishment as the **Learning Pit or the Learning Challenge** (a student-friendly version of Vygotsky's Zone of Proximal Development).

Watch James speaking about the Learning Pit at this link: <https://www.youtube.com/watch?v=3IMUA0hu078>

MAY 2022

COVID-19 RESPONSE TEAM

WHEN TO USE A RAPID ANTIGEN TEST (RAT)

If you are a Close Contact and have NO Covid-19 symptoms, you must use rapid antigen tests to complete your required tests. You must test 5 times over a 7-day period.

If you are a close contact with NO Covid-19 symptoms, you can access free rapid antigen tests from RAT Collection Points across the state. You must register before collecting your kits for the RAT Collection Points.

WHEN TO GET A STANDARD PCR TEST

You should get a PCR test as soon as you develop any Covid-19 symptoms. This applies to all people, including Close Contacts.

Covid-19 symptoms include:

- Fever (a temperature of 37.5 C or higher) or chills
- Cough
- Loss of taste or smell
- Sore throat
- Tiredness (fatigue)
- Runny or blocked nose
- Shortness of breath (difficulty breathing)
- Nausea, vomiting or diarrhoea
- Headache
- Muscle or joint pain
- Loss of appetite

If you are a close contact with no COVID-19 symptoms, you can also get a PCR test.

You must get a PCR test if you are directed to by SA Health or SA Police.

Current as from the 10th May 2022

For more information, please check the SA Covid-19 website. <https://www.covid-19.sa.gov.au/>

Please remember to keep your daughter home from school if she is unwell, even if they are mild symptoms. If your daughter is unwell or has tested positive, please contact the College Reception with your daughter's full name and home class.

Ms Sally Hermel
WHS COORDINATOR

On Friday, 6 May, the two Year 9 French classes went on an excursion to the Prospect Palace Nova Cinema to watch the movie, **Le trésor du Petit Nicholas** (Little Nicholas' Treasure). Little Nicholas' Treasure was full of adventures by a small group of boys and how they, as a group, were inseparable. However, one day, Nicholas' (the protagonist) father receives a promotion which required Nicholas and his family to move. Troubled by this, Nicholas does everything alongside his friends to convince his dad to not move. The film was engaging and excellent, with a wonderful ending. I believe everyone who watched the movie can agree with me that those 2 hours were definitely worth it.

NEWS FROM TEACHING & LEARNING

ENGLISH FACULTY

ALL YOU NEED IS LOVE

Something quite extraordinary took place recently at St Dom's. In all my many years teaching, it was a sight I had never seen before. And it was truly worth the wait.

The Year 11 Pre-Literary Studies class has been studying Trent Dalton's Love Stories, a collection of love stories told to Dalton by members of the public. At the height of the pandemic, Dalton sat on a busy street intersection in Brisbane for three months asking strangers to tell him a love story. His idea was to combat everything that the pandemic was doing to communities around Australia – rather than isolation, disconnection and loneliness, Dalton wanted to reawaken the significance of love in our lives and show that it can be a prevailing force in even the darkest of times.

His published stories have been studied by the class in learning how to craft narrative writing and to convey the importance of love. In order for the class to collect love stories, staff members from St Dom's were invited to a special lunch time session where they told their stories of love to our students. It was such a beautiful sight to see teachers and students sharing the dappled light from under a gum tree where students listened intently to the stories our staff had to offer. It was one of the first times I had seen so many teachers and students in communication that had nothing to do with curriculum or teaching – it was just a sharing of a personal story between two people. And it was magnificent. In our own way at St Dom's, we too were finding that essential balm to calm the scars of what the pandemic has done to even our little community.

Students heard stories of lost love, unrequited love, proposal stories, first date stories, love of their life stories and plenty more. It will now be up to the students to convert these conversations into narratives, using the style of Dalton's writing to compose these texts. We are looking forward to seeing the end results.

I'd like to thank all the students and staff in responding with such positivity to this event. Many staff remarked how therapeutic it was to partake in this event at a time when reconnecting, listening, sharing and laughing can certainly add weight to the adage, All You Need is Love.

Ms Sara Nigro
ENGLISH COORDINATOR

In Science, Year 6 students have been learning about recycling and to finish the topic they made their own paper from recycled paper.

"It has been great making paper. My paper turned out really well and I was able to write on it. I think if we all learn how to recycle then we could save our planet. Making paper is fun but it can also help the planet. It was hard at first but then I got the hang of it." - *Reina*

"I think that making the paper taught us how to reuse and recycle our scrap paper in a fun way. It was enjoyable, but still educational. It was a bit of a process, especially when trying to mash the paper up into smaller pieces, which made the task slightly time consuming. Overall, I think this was a really fun project and it was great to see the paper come together." - *Bianca*

"I think that this was a great idea, I learned a better way to make paper and also help save the trees. I think that making paper out of paper is interesting because the process isn't hard at all also it's a fun process and doesn't take much time although the paper I made wasn't great I would like to try again another time!" - *Gabby*

"I think that making the paper was a very exciting experience. To make paper you didn't need a lot of supplies and steps. It's very interesting to see how everyone had the same strategy, yet all their papers look very different in their own way! I learnt that patience is key because my first attempt was rushed and looked bad, but when I tried again slowly it turned out a lot better!" - *Vi-Anh*

DEPUTY PRINCIPAL: UNIFORM REMINDER

Is your daughter wearing her uniform correctly?

As we begin Term 2, we move to our Winter Uniform. Please note the length of Winter Skirts needing to be below the knee. There is a generous hem that may need to be taken down.

SOME GENERAL REMINDERS

School Jumpers: are not to be worn in the street without a blazer on top and berets are a must Shoes: laces and buckles must be tied up.

Sports: Sandshoes for sport should be predominantly white in colour.

Fawn Socks or stockings: Socks pulled up and stockings should be grey in colour

Hair: Simple and neat. If hair is above shoulder length, it should be tied back with the appropriate navy or black ribbon/ scrunchie. White or patterned hair accessories are not permitted.

Earrings: A stud may be worn only in each ear lobe. No other piercings are permitted.

Jewellery, Cosmetics and Acrylic Nails: Not permitted, with the exception of a watch and signet ring.

Orders for uniforms placed some time ago are now available at Campus School & College Wear (8346 0830).

Thank you for your support in helping us maintain the appearance of the College Uniform, that continues to be worn with pride by students.

Ms Muriel Noujaim
DEPUTY PRINCIPAL

NATIONAL PARA-BADMINTON

Congratulations to **Zashka Gunson** (Year 10) and **Angelina Melki** (Year 12), who have been selected by Badminton Australia as part of the inaugural National Para-Badminton squad (the Para Falcons). What a fantastic achievement for both Zashka and Angelina. We wish them all the best!

STATE SWIMMING CHAMPIONSHIPS

On Monday May 9, **Amy Le** in Year 6 represented North Adelaide Sapsasa in the School sport Sapsasa State Swimming championships. Amy won the gold medal in the Under 12 Breaststroke and is the state champion. Amy will travel to Brisbane later in the year representing SA in the School Sport Australia National championships. Congratulations Amy!

PARENTS & FRIENDS

Welcome to the cold weather!! At the Parents and Friends meeting last Thursday night, we noticed how much the weather has changed since our last meeting – where we sat outside on a balmy evening!

Huddled in the Library as we were – we did have a successful meeting and had the opportunity to meet some new faces and welcome those we have seen before. It was (as usual) a fun night. Topics of discussion included the return to school, friendraising ideas and of course the annual fete. We will start to call more broadly for fete volunteers soon, so watch this space.

It was wonderful to see so many of you at the Family Mass last Sunday – and a special thank you to the volunteers who helped set-up, serve, socialise and pack up. 'Many hands make light work', and it is wonderful to see people enjoying themselves whilst getting to know each other and supporting the Parents and Friends.

The next big thing is the Quiz Night. So, tell us – are you a Hero or a Villain? Last year's quiz night is still talked about so please come and join in the fun this year. The more the merrier... And you just never know which dad is really going to turn up as Ariel... (if his daughter gets her way).

If you are nervous about making a table – speak to your class rep and see if you can get a table or two together. If you haven't contacted your class reps before – let us know, we are happy to connect you.

Your Year Level Reps can be contacted through the Class WhatsApp Group, but both Daniel and Marni are happy to take your calls too.

Have a great week and keep brushing up those trivia skills!

Marni Curtis & Daniel Peric
